## Interstate Commerce Commission Favors the Payment Money to U. S.

(The Associated Press.)  
WASHINGTON, Dec. 9.—Immediate payment to the railroads of sums due them under the guaranty provisions of the Transportation Act, but withheld under the ruling of the comptroller of the treasury was declared by the interstate commerce commission in its annual report today to be "vital in order that the carriers may properly serve the public." The commission recommended that congress amend the Railroad Act to permit the release and payment to the roads of the money thus tied up.  
Many of the roads are greatly handicapped because of their inability to collect the guaranty, the commission said. Although advances against the anticipated deficit were made in scores of instances, the report said some of the roads made no application for aid prior to September 1 and as a result they are stopped from claiming even a portion of money "justly due them" until the mechanical work of completing their audit for the entire guaranty period can be accomplished.

The commission said that in most cases it could not now determine whole for the last seven months also carriers, but that its certifications of these sums to the treasury could not be honored by the treasury since the comptroller had ruled that such applications for advances must have been granted prior to September 1. The commission believed it should be authorized to make "reasonable estimates" to alleviate the difficulties confronting many carriers in meeting operating expenses, fixed charges, etc.

The year's rail operations have developed the need of several other changes in laws, the commission said. It urged congress to amend the interstate commerce act to provide for the punishment of any person "offering or giving to an employee of a carrier subject to the act any money or thing of value with intent to influence his action or decision with respect to car service and also to provide for the punishment of the guilty employee."

Appropriate legislation governing the transportation of explosives was asked as were changes in laws affecting the awarding of reparations for damages which, the commission held, should be a matter entirely for the adjudication of courts.

The menace of wooden passenger coaches was set forth as another subject for legislative action, the commission urged.

The penguins of the Antarctic region are the most human of all the bird family.

### WAR ON BABIES

The yearly baby casualty list of the United States is five times as large as the total American casualty list during the World War.  
Two hundred and fifty thousand babies die every year, killed just as surely and ruthlessly by the war of ignorance and indifference as though they had been wiped out by machine guns, mutilated by exploding shells or suffocated by deadly gases.

In the nineteen months' fighting, 215,489 United States soldiers were wounded, 13,955 died of their wounds, and 34,625 were killed in battle. During that same year and a half, 390,000 American babies, less than a year old, and 37,000 mothers, paid the "supreme sacrifice" because of ignorance, poverty and lack of attention.

To prevent this sacrifice in large measure, the Sheppard-Towner bill was formulated. The women of the country, and many of the men, are working to the end that this bill be passed in the next session of congress.

Of every dollar paid into the national treasury, 93 cents goes to pay for past and future wars, for war debts, for pensions, for war risk insurance and for the upkeep of the army and navy departments. One per cent of the government's income is used in the department dealing with human welfare, and this pitiful proportion, .005 is available for women's and children's welfare.

With ordinary health education and instruction for mothers, which the Sheppard-Towner bill will provide, two-thirds of our babies can be saved. This has been definitely proved in some American cities. It has been proved in France, England and other European countries where the protection of maternity and infancy has brought down the appalling mortality 50 per cent.

On "the night before Christmas," each lassie or lad is a large question mark to their mother and "dad." Too old for a toy and too young for a gun. What can we get them that's worth while and don't run too foolishly expensive, and is gone in a day—Something that lasts and is more than just play?

By Juggles I'll tell you, fond mother and dad, A "BIKE" is the gift for that lassie or lad. There isn't a thing in old Santa Claus' shop From the basement clear up to the attic on top That's as useful and lasting, and will bring so much joy As a CHRISTMAS BICYCLE for that girl or boy.

When Santa Claus Wields the Paint Brush

When Christmas time comes you want things bright and merry. And paint helps you have that kind of a Christmas—bright and merry and jolly.

Paint, too, is a sensible Christmas purchase. It does no harm to be practical, even at Christmas time.
